DETAILED ACTION

Election/Restrictions

1. Applicant affirms applicant's previous election without traverse of Group I, claims 1-15. However, applicant apparently requests switching elected inventions to Group II, claims 16-21. This request is hereby denied. Claims 16-21 remain withdrawn from consideration.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 15 has been amended to depend from ~~canceled~~ a canceled claim, claim 2.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 14 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Reed (US 249,547). Regarding claim 1, Reed ('547) discloses an undulating conduit including a generally round internal cross section (see Figs.1-3) having a radius r_c and a generally helical undulation having a path radius r_h , said conduit including an open inner

Art Unit: 1723

channel along the longitudinal axis of the conduit, said conduit having a radius r_i that is substantially equal to $r_c - r_h$ (see Figs. 1-3). Claim 14 fails to positively recite any further structural limitation. Regarding claim 15, said conduit has an undulating structure at upper portions thereof (see Fig. 1).

Double Patenting

6. Claims 1, 14 and 15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,896,007. Although the conflicting claims are not identical, they are not patentably distinct from each other because claim 1 of US Patent No. 6,896,007 includes all the limitations of each of these claims.

Response to Arguments

7. Applicant merely asserts patentability, without even attempting to point out a difference between any of the applied prior art and the invention.

8. In accordance with USPTO policy, cumulative rejections have been avoided by applying only the best prior art available.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1723

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
